Experience

Full Stack Developer

August 2023 - Present

Incredevent

Winnipeg, MB, Canada

- Proficient in utilizing Vue, Laravel, Tailwind CSS, SCSS/SASS, MongoDB and JavaScript for developing modular and efficient code.
- Providing expertise in crafting contemporary and sleek designs using CSS frameworks.
- Designing and developing responsive web applications and user interfaces.
- Efficiently managing projects using Git, ensuring version control and streamlined workflows.

Frontend Developer

January 2023 - Present

Design Factory

Winnipeg, MB, Canada

- Played a pivotal role in Design Factory's success by creating responsive web applications and user interfaces using React and Vue.
- Designed and developed modular code using Vue components and Vuex for effective state management.
- Designed and developed modular code using React components and Redux for effective state management.
- Utilized CSS frameworks such as Bootstrap and Tailwind CSS to produce sleek, contemporary designs.
- Possessed a strong command of CSS and consistently delivered exceptional user experiences.

Frontend Mentor

April 2023 - August 2023

Go-Mother IT school

Kyiv, Ukraine

- Developed and delivered interactive and engaging lessons to teach children aged 10-14 the basics of front-end web development using HTML, CSS, and JavaScript.
- Created activities and assignments to reinforce learning and help students retain knowledge
- Assessed students' progress and provided feedback to help them improve.

Frontend Developer and Web Designer

December 2022 - February 2023

Snapster

Winnipeg, MB, Canada

- Significantly contributed to Snapster's accomplishments by crafting dynamic, responsive web applications.
- Designed and implemented scalable, modular code using React components and Redux for effective state management.
- Employed design expertise to produce wireframes and high-fidelity mockups in Figma, delivering a seamless user experience that surpassed client expectations.

Frontend Developer and Social Media Manager

May 2022 - December 2022

FAYNI Web3

Kherson, Ukraine

- Made significant contributions to the development of an NFT minting website at Fayni, utilising both React and Solidity.
- Collaborated closely with the Solidity team to ensure seamless integration between the front-end and back-end, resulting in a smooth-functioning website.
- Was responsible for designing and executing email marketing campaigns to promote the NFT minting website, as well as managing its presence on Twitter.
